

Welcome to PHConnect

Introduction to PHConnect Buy-Side – *Schedules*

ENGINEERING YOUR SUCCESS.

PHConnect - Schedules

- Purpose:
 - Allow suppliers the ability to review all orders with Parker and download orders for planning purposes

The purpose of the schedules screen is that it allows suppliers the ability to review all orders with Parker and download orders for planning purposes.

PHConnect - Schedules

Status Code	PO No	Last Rcpt Qty	Last Rcpt Date	Accum Rcpt Qty	Promise Date	Notices
SH	521267			0		2/20/2010
SH	521268			0		2/20/2010
SH	521269			0		2/20/2010
SH	521264		09/22/2010	0		2/20/2010

Schedules is the same information on the Kanban page with the addition of two columns in the table:

- **Status Code** – Will always be SH (Ship to Parker)
- **Accum Rcpt Qty** – This is the accumulated receipt quantity on this purchase order

Available Options are the same as Kanban – Help, Excel and XML download, Create ASN and Update Promise Date.

The schedules screen has the same information as the Kanban screen. The only difference from the Material Release screen is the part number is listed in the order detail listing.

There also options available to download the schedules information into Excel or XML formats. When the ASN module is launched the ability to advanced shipping notices and send updated promise date information will be available to suppliers.
