The Racor Village Marine Ultraviolet Light Germicidal Systems effectively kill bacteria and viruses with a 99.9% efficiency. The VMS-3 is constructed with a stainless steel housing, high purity quartz flow tube and high output, long life bulb.

The VMS-3 is typically installed in the distribution system or near the point of use to ensure safe, pure drinking water. There are no chemicals added to the water and no chemical aftertaste.

ENGINEERING YOUR SUCCESS.
