Parker Racor releases LTM Series Watermakers

Stock Symbol: PH - NYSE

Gardena, California, April 4, 2011- Racor Division of Parker Hannifin Corporation, the global leader in motion and control technologies, is pleased to announce the release of its LTM Series of watermakers. The Racor Village Marine LTM is a compact watermaker for marine applications in ready-to-mount modules for flexible installation.

"We offer customers the option of a watermaker package that allows for customized installation of the components. The LTM offers high quality Racor Village Marine engineered components with straightforward manual operation," according to Steve Yoshimura, Engineering Manager. "Driven by AC motors [from genset power], the modular configuration helps boat owners to fit a watermaker into tight spaces."

Integral to every LTM unit are a stainless steel pressure regulator and bypass valve, high quality spiral wound thin film composite reverse osmosis membranes, five micron pre-filter, fresh water flush system, magnetic drive boost pump, stainless steel glycerin filled pressure gauges, high pressure plunger pump with stainless steel 316 head, and an acrylic flow meter to monitor water production. Optional component is a salinity probe monitor and diversion valve system for water quality assurance. Flow ratings of 500-1800 gallons per day and various electrical configurations are available.

For more information, please see bulletin number 7986.

The leading specialist in reverse osmosis technology for the USCG, US Navy, commercial marine, land-based, disaster recovery, and oil & gas markets, for over 30 years, Racor Village Marine Tec. is dedicated to serving the needs of mariners. www.villagemarine.com

With annual sales exceeding \$10 billion, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. The company employs approximately 52,000 people in 48 countries around the world. Parker has increased its annual dividends paid to shareholders for 53 consecutive years, among the top five longest-running dividend-increase records in the S&P 500 index.
