### **Parker Racor Solutions offered at Marine Center Showrooms**

**Stock Symbol:** PH - NYSE

Gardena, California, February 22, 2011- Racor Division of Parker Hannifin Corporation, the global leader in motion and control technologies, is pleased to announce marine-focused customer support centers. Located in Ft. Lauderdale, Seattle, and San Diego these retail operations offer Parker marine products and on-site service supplying marine hose and connectors, Racor fuel, oil, air, hydraulic, and emission filtration solutions, and the Village Marine family of oil/water separators and reverse osmosis watermakers.

“These Parker Racor marine centers present a concierge level of customer care for the pleasure and commercial marine market” according to Mark Dickman, marine business development manager for Racor, “working in congress with our distribution channels these showrooms allow customers to view the latest Parker marine products and discuss their specific needs with the local staff to develop customized solutions. This follows Parker Hannifin’s brand promise to Engineer your Success”.

In addition, by consolidating remote operations Parker Racor will focus on distribution service support via a new Certified Technician program. Headed by Greg Newman, Technical Services Manager, Parker Racor will be assisting premier distributors in establishing a network of North American service dealers that will be qualified and certified to install and service Racor VMT watermakers and other products. Greg will also be visiting key marine locations in the new Parker Racor filtration and watermaker demonstration van.

For more on the Certified Technician program, please call Greg Newman at 561-601-7004. For more on the Parker Marine Center addresses and contact information, details are located on the website shown below.

The leading specialist in reverse osmosis technology for the USCG, US Navy, commercial marine, land-based, disaster recovery, and oil & gas markets, for over 30 years, Racor Village Marine Tec. is dedicated to serving the needs of mariners. [www.villagemarine.com](http://www.villagemarine.com)

With annual sales exceeding \$10 billion, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. The company employs approximately 52,000 people in 48 countries around the world. Parker has increased its annual dividends paid to shareholders for 53 consecutive years, among the top five longest-running dividend-increase records in the S&P 500 index.
