Parker Racor Marine Clean Plus+ Multi-Purpose Cleaner

Stock Symbol: PH - NYSE

Gardena, California, November 22, 2011 - Racor Division of Parker Hannifin Corporation, the global leader in motion and control technologies, is pleased to announce a new multi-purpose cleaner degreaser for marine applications. Marine Clean Plus+ is formulated to offer an environmentally friendly and effective cleaning solution. Offered in a five-gallon pail and concentrated for dilution with water, Racor Marine Clean Plus+ is available from Racor distributors globally. The part number is 85-2031.

Unknowingly, many ships' personnel introduce cleaning products into the bilge collection areas that inhibit the efficient operation of oil/water separators. Use of traditional cleaners and detergents may create environmental compliance issues and unnecessary maintenance expense for vessel owners. A solution is to use advanced Parker Racor "liquid" technology, Marine Clean Plus+. According to Racor engineer Gustavo Garcia; "We took the feedback from our end-user customers and implemented 21st century technology to meet their needs."

Marine Clean Plus+ is specifically formulated by Parker Racor to be compatible with oil/water separation systems. The detergent chemistry can be utilized with both fresh water and sea water wash and rinse operations, and is designed specifically for owners of Racor oil/water separation equipment (see bulletin 7882). It is an environmentally safe product that can also be used for cleaning in other areas of a vessel.

For more information, please see us at booth 2828 at the International WorkBoat Show in New Orleans. For more information see bulletin VMT0016 at www.villagemarine.com

With annual sales exceeding \$12 billion in fiscal year 2011, Parker Hannifin is the world's leading diversified manufacturer of motion and control technologies and systems, providing precision-engineered solutions for a wide variety of mobile, industrial and aerospace markets. The company employs approximately 58,000 people in 47 countries around the world. Parker has increased its annual dividends paid to shareholders for 55 consecutive fiscal years, among the top five longest-running dividend-increase records in the S&P 500 index.
