## Notes:

If this Order shows on its face that it is placed in support of a U.S. Government funded prime contract or subcontract, or if the Buyer otherwise notifies the Seller that this Order is placed under a U.S. Government prime contract or subcontract, the following clauses of the Federal Acquisition Regulations (FAR), and the Department of Defense Federal Acquisition Regulation Supplement (DFARS) apply and are incorporated herein by reference with the same force and effect as if set forth below in full text. These clauses apply to all firm-fixed price (FP), cost reimbursable (CR), and time & material/labor hour (TM/LH) purchase orders, as appropriate.

Full text versions of these clauses can be made available upon Seller's request to the Buyer's authorized representative. Additionally, full text versions of these clauses are available from the U.S. Government in searchable form on the World Wide Web (WWW) portion of the Internet. The sites to be contacted are: (1) For the FAR-<http://www.acquisition.gov/comp/far/index.html>; and (2) For the DFARS- <http://www.acq.osd.mil/dpap/dars/dfars/index.htm>.

- a. **SCOPE OF AGREEMENT.** This purchase order (which term shall be deemed to include related plans, drawings, specifications, and other documents) contains the entire agreement of the parties, and no modification, alteration, waiver, or other provision which is inconsistent with or in addition to the provisions of this order shall have any force or effect unless the same shall be incorporated in the order in writing by the Buyer.
- b. **DISCLAIMER OF IMPLIED WARRANTIES: EXTRACTIONAL INFORMATION AND DOCUMENTS; NO WARRANTY OF ACCURACY AND COMPLETENESS.** Any and all documentation and information that Buyer may at any time (pre-award or post-award) provide to Seller that has not been incorporated within and made a part of this purchase order (whether identified as being "For Information" or otherwise) shall be (i) non-contractual, (ii) provided solely for information and (iii) provided "as is" and without warranty, expressed or implied, including, without limitation, the implied warranties of accuracy and completeness. Seller agrees that Buyer cannot waive this disclaimer except in a formal modification to this purchase order.
- c. **WAIVER AND SEVERABILITY.** The failure or delay of either party to insist on performance of any provision of this order, or to exercise any right or remedy available under this order, shall not be construed as a waiver of that provision, right or remedy in any later instance. Further, if any provision of this order is or becomes void or unenforceable by operation of law, the remaining provisions shall be valid and enforceable.
- d. **CONTRACT DISPUTES ACT INAPPLICABLE.** Notwithstanding any provision within these terms and conditions (whether incorporated by reference or provided in text) to the contrary, the Contract Disputes Act (41 USC 601-613, as may be subsequently amended) shall in no manner apply to this purchase order.

3. **DELIVERY**

All delivery requirements set forth in this order are firm. Seller agrees that delays during performance of the order which would cause delivery to extend beyond contractual delivery date(s), and which are the responsibility of Seller, must be made up by Seller at its expense through the use of whatever means are necessary including, but not limited to, overtime and additional work shifts.

If Seller notifies Buyer that Seller anticipates or is encountering difficulty in complying with the delivery schedule specified in this order or not meeting any other requirement of this order, such notification shall be for information only and its receipt by Buyer shall not be construed as a waiver by Buyer (i) of any delivery schedule or date, or (ii) of compliance with any other order requirements by the Seller, or (iii) of any other rights or remedies provided to Buyer by law under this order.

Unless otherwise provided in this order or approved by the Buyer, delivery shall not be made more than forty-five days prior to the delivery dates specified herein. Buyer reserves the right to obtain consideration for approving such early delivery in addition to the impact to "Warranty" described in Article 9. Buyer may return early deliveries at Seller's risk and expense. Repair parts may ship by the purchase order delivery date or sooner; the forty-five day restriction does not apply to repair part procurements.

Should the Buyer determine that an extension in the purchase order delivery dates set forth herein is advisable; the extension will be accomplished under a bilateral amendment at no increase in purchase order price.

#### 4. TAXES

Unless otherwise expressly stated on the face of this order, the price stated herein includes all applicable Federal, state and local taxes in effect on the date of this order but does not include any state or local sales, use or any other tax directly applicable to the completed supplies or services covered by this order from which Seller or this transaction is exempt.

#### 5. PAYMENTS

- a. Except as otherwise provided in this order (e.g., progress payments), no payment by Buyer shall be due until thirty days after (1) receipt of an acceptable invoice and appropriate evidence that Seller has met all requirements of the order, or (2) receipt of the supplies and/or services at FOB point, whichever last occurs. Buyer may at its discretion make payments for partial delivery of supplies or services if so requested by Seller. No payment made by Buyer shall be deemed to indicate final acceptance and any payment made prior to final acceptance shall be returned by Seller at the request of Buyer if the supplies or services to which the payment relates are rejected.
- b. Unless otherwise provided, if this order provides a discount for prompt payment, the discount period shall be calculated from the date an acceptable invoice and supporting evidence that all order requirements have been met is received or the date of receipt at FOB point of the supplies and/or services, whichever last occurs.
- c. If provided for in this order, Progress Payments for Large Business, Small Business, and Small Disadvantaged Business shall be subject to the terms contained in FAR 52.232-16 except that: wherever stated, the word "Contractor" shall mean "Seller", the word "Contract" shall mean "Purchase Order" and the words "Government", "Contracting Officer" and "Contracting Agency" shall mean "Buyer" [except that "Government" shall retain its meaning in paragraphs (d)(1), (d)(2)(ii), (d)(3), (d)(5) first reference, (d)(6)(i) and (ii), (d)(7), (e) except in the last sentence, (g) in the last sentence, (h) when referring to property delivery, (j)(3)(ii) and (v), (j)(5) except the last reference, and (j)(6)].

  - For Small Disadvantaged Businesses – as stated in DFARS 252.232-7004(b)
- e. Eligibility for progress payments will be determined in accordance with FAR 32.104(d).
- f. For orders where progress payments are applicable, the following applies: Upon Seller submittal of the data required per FAR 32.503-9 and -10, that data will be evaluated per FAR 32.503-9 and -10 and the liquidation rate adjusted accordingly.
- g. At Buyer's request and as applicable, Seller agrees to execute financing statements (UGC Form 1 or equivalent) and any related documents to reflect the Government title to Property as provided in FAR 52.232-16 (Progress Payments) or FAR 52.232-32 (Performance Based Payments). Seller agrees to include the substance of this provision in any subtier order which will receive such payments reimbursed by Buyer or work in progress from Seller in which the Government has title. Notwithstanding the foregoing, Buyer's failure to request and file financing statements shall in no way reduce or lessen the Government's interest in property as defined in FAR 52.232-16 or FAR 52.232-32, as applicable.
- h. Seller and each assignee under an assignment in effect at the time of final payment agree as a condition precedent to final payment, that the Buyer and the Government, their respective officers, agents and employees are released from all liabilities, obligations and claims arising under or by virtue of this order.

- i. Seller agrees that prior to the satisfaction of the technical data requirements as prescribed in DFARS 252.227-7030, Buyer will withhold an amount per Article 10(i). Subsequent to the satisfaction of this DFARS article, Seller further agrees that the final invoice shall constitute not less than ten percent (10%) of the total order price. Payment up to 100% of purchase order value is permitted at time of shipment with regard to purchase orders procuring only repair parts providing all certifications, drawings, and other required deliverable items have been received by the Buyer.

Notwithstanding the above, if Performance Based Payments are provided for in this order, they shall be in accordance with FAR 52.232-32 with the following exceptions:

Wherever stated, the word "Contractor" shall mean "Seller", the word "Contract" shall mean "Purchase Order", and the words "Government", "Contracting Officer" and "Contracting Agency" shall mean "Buyer" [except that "Government" shall retain its meaning in paragraphs (c) (3), (f), (g), and (m)(3)].

Paragraph (c) (2) regarding the provisions of the Prompt Payment clause is deleted.

In Paragraph (h) regarding records and controls, references to "Contracting Officer" shall be read as "Contracting Officer or Buyer".

In Paragraph (i), regarding reports and Government access, references to "Contracting Officer" and "Government" shall be read as "Contracting Officer / Government or Buyer".

  1. If the purchase is in whole or in part for **supplies**: (i) drawings, designs and/or specifications when the supplies to be furnished are to be specifically manufactured for Buyer in accordance with the drawings, designs and/or specifications; (ii) method of shipment or packing and (iii) place of delivery, inspection and/or acceptance.
  2. If the purchase order is in whole or in part for **research and development**: (i) drawings, designs or specifications; (ii) method of shipment or packing and (iii) place of delivery, inspection and/or acceptance.
  3. If the purchase is in whole or in part for any other **services**: (i) description of services to be performed; (ii) time of performance (i.e., hours of the day, days of the week, etc.) and (iii) place of performance of the services.
- b. If any such Change Order causes an increase or decrease in the cost of, or the time required for, performance of any part of the work under this order, or otherwise affects any other provision of this order, whether changed or not changed by any such written notice of change, an equitable adjustment shall be negotiated in the order price or delivery requirements or both, and in such other provisions of the order as may be affected. Such adjustment shall be accomplished by a written amendment to this order signed by Buyer. No changes to this order are authorized unless made by a Buyer representative designated by name herein and substantiated by a formal written amendment/change order. Changes made by Seller, unless authorized by a formal written amendment/change order, shall be made at the sole risk of Seller, there being no financial recourse against Buyer.
- c. Any request by Seller for equitable adjustment under this article must be asserted within thirty days or such earlier date as may be specified by Buyer from the date of receipt by Seller of the

notification of Change Orders; provided, however, that Buyer, if it decides that the facts justify such action, may receive and act upon any such Request for Equitable Adjustment (RFEA) asserted at any time prior to final payment under this order.

- d. Where the cost of property made obsolete or excess as a result of change is included in Seller's RFEA, Buyer reserves the right to prescribe the manner of disposition of such property.
- e. Nothing in this article shall excuse Seller from proceeding with the order as changed.
- f. Buyer will not pay for additional work or extras unless such work or extras have been ordered in writing and the price therefore agreed upon. Changes made by Seller without an authorized Change Order or Amendment shall be made at the sole risk of Seller, there being no financial recourse against Buyer.
- g. Seller shall not substitute other material or accessories for those specified in the order without the written consent of Buyer.
- h. Any purchase order RFEA, including a request for equitable adjustment to purchase order terms, a request for relief under Public Law 85-804, or other similar request exceeding \$150,000 shall bear, at the time of submission, the following certificate given by an individual who has knowledge of the basis of the request, knowledge of the accuracy and completeness of the supporting data, and knowledge of the request for equitable adjustment request:

*I certify that the request for equitable adjustment is made in good faith, that the supporting data are accurate and complete to the best of my knowledge and belief; that the amount requested accurately reflects the purchase order adjustment for which the Seller believes the Buyer is liable; and that I am duly authorized to certify the request for equitable adjustment on behalf of the Seller.*

\_\_\_\_\_  
*Official's Name*

\_\_\_\_\_  
*Title*

- i. The certification in Paragraph h. requires full disclosure of all relevant facts, including cost or pricing data.

J. The certification requirement in Paragraph h. does not apply to: (i) Requests for routine order payments, for example, those for payment for accepted supplies and services, routine vouchers under cost reimbursement type purchase orders, progress payment invoices, and performance based payment invoices, and (ii) Final adjustments under incentive provisions of purchase orders.

## **7. LIENS**

Seller agrees to deliver to Buyer the articles covered by this order free and clear of all liens, claims, and encumbrances.

## **8. INSPECTION**

- a. All work (which term throughout this article includes without limitation raw materials, procedures and processes, components, intermediate assemblies and end products) that is performed in accordance with order requirements of this purchase order shall be subject to inspection and test by Buyer and the Government, to the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance. Seller is responsible for, and shall upon Buyer's request furnish evidence of, compliance with all requirements of the order; and

inspection and test by Buyer or the Government of any work, or approval of designs, drawings, samples, test results, procedures, processes or schedules by Buyer or the Government does not relieve Seller from any responsibility to meet the order requirements.

- b. In case any work is defective in material or workmanship or otherwise not in conformity with the requirements of this order, Buyer shall have the right either to reject it (with or without instructions as to its disposition) or to require correction. Work which has been rejected or required to be corrected shall be removed, or, if permitted or required by Buyer, corrected in place by and at the expense of Seller promptly after notice, and shall not thereafter be tendered for acceptance unless the former rejection or requirement of correction is disclosed. If Seller fails promptly to remove such work which is required to be removed, or promptly to replace or correct such work as specified by Buyer, Buyer either (1) may, by purchase order or otherwise replace or correct such work and charge to Seller the cost occasioned Buyer thereby, or (2) may terminate this order for default as provided in the article of this order entitled "Default". Unless Seller corrects or replaces such work within the delivery schedule, Buyer may require the delivery of such work at a reduction in price which is equitable under the circumstances.
- c. If any inspection or test is made by Buyer and/or the Government on the premises of Seller or a subtier subcontractor, Seller without additional charge shall provide a safe place to work and reasonable facilities and assistance for the convenience of Buyer and/or the Government's representatives in the performance of their duties. If Buyer and/or Government inspection or test is made at a point other than the premises of Seller or a subtier subcontractor, it shall be at the expense of Buyer except as otherwise provided in this order; provided that, in case of rejection, Buyer shall not be liable for any reduction in value of samples used in connection with such inspection or test.
- d. All inspections and tests by Buyer and/or the Government shall be performed in such a manner as not to unduly delay the work. Buyer reserves the right to charge to Seller any additional costs of Buyer's and/or the Government's inspection and test when work is not ready at the time such inspection and test is requested by Seller or when re-inspection or retest is necessitated by prior rejection.
- e. Acceptance or rejection of the work shall be made as promptly as practicable after delivery, except as otherwise provided in this order; but failure to inspect and accept or reject work shall neither relieve Seller from responsibility for such work as is not in accordance with the order requirements nor impose liability upon Buyer therefore. Except as otherwise provided in this order, acceptance shall be conclusive except as regards latent defects, fraud, or such gross mistakes as amount to fraud.
- f. Inspection and test requirements specifically required by this order are for the convenience of Buyer and/or the Government and do not relieve Seller of its responsibility to provide a high-quality product which meets order requirements. If during the period specified in the article of this order entitled "Warranty" any failure to meet order requirements is uncovered (including any uncovered by Buyer's and/or the Government's own tests), Seller shall be responsible in accordance with the provisions of said warranty article for correcting the condition; this requirement applies regardless of the extent of testing or inspection specifically required by this order.
- g. Seller shall provide and maintain, and require its subtier subcontractors to provide and maintain, an inspection and quality control system acceptable to Buyer and the Government covering the work hereunder. Records of all inspection and quality control work by Seller and its subtier subcontractors shall be kept complete and available to Buyer and/or the Government during performance of this order and for such longer period as may be specified elsewhere in this order.
- h. In the event this order is, in full or in part, for services, then (i) paragraphs a through d above are deleted solely with regard to the services portion of this order and replaced with FAR 52.246-4, Inspection of Services--Fixed Price and (ii) paragraphs e through g above remain fully applicable except that references to "items" or "components" are replaced with "services".

9. WARRANTY

- a. In addition to its obligations under other provisions of this order (including those concerning inspection and acceptance), Seller warrants material and workmanship, and that the items furnished under this order will be manufactured in accordance with the order requirements, and, if Seller is responsible for design, will meet all design requirements set forth in this order. The term of this warranty is for a period of three years after delivery or for a period of one year after the date first placed in use, whichever first expires (or in the case of standard commercial articles, one year after delivery). However, in the case of a Buyer approved delivery earlier by more than 45 days with respect to the contract delivery date specified in this purchase order, the warranty period shall commence on the contract delivery date.
- b. Buyer shall give Seller notice of any defect or lack of conformity with order requirements within a reasonable time after discovery. Seller shall promptly thereafter (without additional cost to the Buyer) either correct or replace such defective or nonconforming item or component thereof, and correct or replace all appropriate drawings, procedures, technical manuals, design reports and substantiating data. If Buyer does not require correction or replacement of the defective or non-conforming item or component thereof, Seller, within a reasonable time after the notice shall repay such portions of the order price of the item as is equitable under the circumstances. If Seller fails to proceed with reasonable promptness to make any correction or replacement in accordance with the provisions of this article, Buyer reserves the right to cause such corrections or replacement to be made and Seller agrees to reimburse Buyer for the costs incurred thereby. Unless otherwise agreed, correction or replacement of defective or non-conforming items or components thereof shall be performed subject to and in accordance with the provisions of this order. Buyer has the right to require Seller to correct in place any defective or non-conforming item or component thereof delivered under this order or to return such item or component to Seller for correction in which case Seller shall be responsible for packing and packaging charges and shipping cost (to and from Seller's plant) for the item or component returned for correction. In exercising this right, Buyer will notify Seller which alternative it proposes to take. In this connection, Buyer will be reasonable in making its election in terms of its and the Government's time requirements, the relative economies of each course and the particular circumstances at the time of election, giving due regard to any reasonable requests of Seller. In the event that Seller is required to correct in place, Seller shall not be responsible for removal or reinstallation of the items or structural parts not furnished by Seller under this order. Seller shall not be required to incur costs for such correction in place in excess of an amount equal to the total price of this order. In the event that any defective item is returned by Buyer to Seller's plant for correction, Buyer shall be responsible for removing the defective item from the system and Seller shall, upon completion of correction, make delivery as directed by Buyer, but shall not be obligated to incur costs in excess of the total price of this order, plus shipping (to and from Seller's plant) and packing and packaging charges, nor shall Seller be responsible for any costs of reinstallation. However, Seller shall not be responsible for shipping costs outside the continental limits of the United States.
- c. The warranty with respect to a corrected or replaced item, items or components thereof, shall be subject to the same terms as the warranty provided for in paragraph a. The original warranty for other than the corrected or replaced item, items, or components thereof shall continue until the expiration of the period prescribed in paragraph a. plus a period equal to the time elapsed between the discovery of the defect and correction or replacement of the defective item, items or components thereof.
- d. Defective or non-conforming items or components thereof which Seller is required to correct or replace in accordance with the provisions of this article may be contaminated with radioactivity. Should the level of radioactivity of items or components thereof be sufficient to create by itself a "radiation area" as defined in 10 C.F.R. Sec. 20.1003 in effect on the date of this order, Seller shall nevertheless promptly correct or replace such items or components as directed by Buyer. In the event Seller's costs of correction or replacement are increased solely by reason of the level of radioactivity of any such items or components thereof which exceeds the level specified in the definition of "radiation area", an equitable adjustment shall be made, and such adjustments shall

be agreed to in writing. If Buyer, with respect to any such items or components thereof having a level of radioactivity sufficient to create by itself a "radiation area", elects, as provided in paragraph b above, to require payment of an equitable portion of the order price, the parties shall not consider the estimated additional costs of correcting such item or component incurred solely by reason of the level of radioactivity specified in the definition of "radiation area".

- e. Approval of designs, drawings, samples, test results, procedures, processes or schedules by Buyer or the Government shall not in any way limit or diminish Seller's warranties hereunder.
- f. Computer Hardware, Software and Firmware. In addition to, and without limitation upon, the warranty provided under the other provisions of this Article, the following provision entitled "Virus Warranty" applies to all orders and the following provision entitled Year 2000 Warranty applies to all orders for (i) customized (i.e., developed directly for Buyer) software, hardware and/or firmware and (ii) software, hardware and firmware which is incorporated within items furnished under this order.

1. Virus Warranty

Software and hardware provided by the Seller shall not contain known computer viruses or other malicious software in accordance with the following:

Viruses are program code that replicate themselves on execution and create undesirable effects, generally only applicable to personal computer systems. Malicious software is program code intentionally added to programs or media to produce undesirable results. An unintentional software error is not malicious code and will be resolved in accordance with other applicable purchase order requirements.

The Seller shall take anti-virus and anti-malicious software precautions including installation and proper use of anti-virus software where applicable and implementation of workplace awareness to avoid conveying known computer viruses or other malicious software to the Buyer. Specifically, all computer files, disks, memories, or other media produced by or utilized on operating systems supported by anti-virus utilities and provided by the Seller to the Buyer (other than third party supplied software in its original, unopened packaging materials) shall be checked by the Seller prior to delivery to the Buyer to detect and remove any known computer virus or other known malicious software. The Seller virus check shall be performed using the current signature file and software revision for the Seller selected anti-virus software. The Seller shall include a statement verifying that the check has been made prior to delivery to the Buyer. The Seller is not required to perform a virus check on media generated by operating systems not supported by anti-virus utilities.

The Seller shall replace or correct media found to have virus/malicious software during the Seller's check or later found by the Buyer during initial use (including receipt inspection virus check when applicable). The Buyer will provide written notification regarding any virus/malicious software contamination to the Seller.

2. Year 2000 Warranty

Seller warrants that each hardware, software and firmware product manufactured, developed, or integrated by Seller and delivered under this purchase order (if this order is for supplies) and/or maintained under this purchase order (if this order is for maintenance services) shall be able to process date data from, into and between the years beginning with 19 (i.e., 1900-1999) and the years beginning with 20 (i.e., 2000-2099). This includes, but is not limited to, calculating, comparing and sequencing when used in accordance with Seller's product documentation. If the purchase order requires that specific listed products shall perform as a system in accordance with the foregoing warranty, then that warranty shall apply to those listed products as a system. Repair or replacement of non-compliant products shall be with products that are Year 2000 compliant. Nothing in this warranty shall be construed to limit the rights or remedies the Buyer may otherwise have under this purchase order with respect to defects other than Year 2000 performance.

- g. In the event this order is, in full or in part, for services, then (i) paragraphs a and b above are deleted solely with regard to the services portion of this order and replaced with FAR 52.246-20, Warranty of Services (ii) paragraphs c and e remain fully applicable except that references to "items" or "components" are replaced with "services" and (iii) those portions of paragraphs d and f that qualify as services remain applicable.

In addition, this authority does not authorize the Seller to release any information under or related to the subject order to a foreign source prior to submitting the information to the Buyer for either specific Buyer approval or information as required by the purchase order.

Moreover, approval for release of information to subtiers and other entities with which Seller has a contractual or prospective contractual relationship does not extend to those entities who, regardless of relationship, do not have in place proper safeguards and procedures for receipt and handling of the sensitive information.

The requirements of Paragraphs (a) and (b) above remain in effect as set forth and Seller must receive approval for release to any entity not covered by the authority set forth above in this paragraph (c). NOTE: For more specific guidance in this area, see security control documentation applicable to this order.

- d. Litigation. Should any information described in (a) above be requested, subpoenaed, or otherwise sought by a court or other judicial or administrative authority, this should be promptly brought to the attention of the Buyer to permit appropriate measures to be taken to protect the information. Under no circumstances should information, other than Paragraph (a)(2) information, be released to such authority without prior notification to, and agreement of, Buyer.
- e. Survivability. Seller agrees that the requirements of this Article 32, to include Seller's obligation to obtain prior Buyer approval of any release other than a Paragraph (a)(2) or (c) release, shall survive the purchase order and that Seller shall not for a period of twenty years subsequent to the issuance of the purchase order either directly or indirectly issue any such release without the requisite approval of Buyer, its successors or assignee.

- b. Seller shall not include in any proposal any cost which FAR Part 31 or DFARS Part 231 (in its form at the time the cost is submitted in a Seller proposal) makes unallowable, as defined in FAR Subpart 2.1.
- c. Should Seller include within any proposal any cost made unallowable by FAR Part 31 and/or DFARS Part 231, and should Seller thereafter receive any payment on the basis of such unallowable cost, then Seller shall, upon its own initiative or at Buyer's request, reimburse Buyer the full amount of such unallowable cost it received plus interest as determined in accordance with FAR 52.232-17, Interest.

## SUBTIER PASSDOWN REQUIREMENTS

The following table is provided to assist the Seller in determining the articles and clauses which must be passed down when Seller procures supplies or services necessary to complete this purchase order.

**"X" Mark in Mandatory Passdown Column** - means passdown is required. Where an article or clause is mandatory it is required in all subtier orders, regardless of tier, unless stated otherwise. Where there is a note adjacent to a mandatory passdown then the passdown is mandatory solely to the extent provided for in the note. Should Buyer fail to mandate the passdown of an article or clause that must be passed down to comply with Federal law or regulation, such clause shall be considered to have been passed down.

**Asterisk (\*) in Mandatory Passdown Column** - indicates a non-mandatory passdown which Buyer recommends Seller consider passing down to protect Seller's position. (Note: it may be to Seller's advantage to passdown clauses not marked with an asterisk. The asterisk clauses are provided by Buyer solely as a courtesy and Seller remains obligated to determine which nonmandatory passdowns are in Seller's best interests to pass down.)

**Effectivity Point** – unless stated otherwise in a note adjacent to the clause or article: (i) the Article 26 mandatory passdowns are mandatory at the same monetary level for which the clause is applicable to the Seller and (ii) all other mandatory passdowns are applicable to all subtier orders regardless of dollar value. Buyer suggests that recommended passdown articles be included in all orders.
