**Subject: 70-0526 KIT, PUMP, REBUILD, BOOSTER PUMP**

**Details:**

**Part number: 70-0526 has been obsolete**

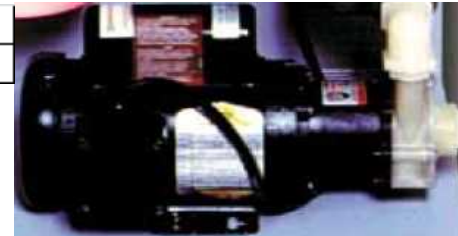

**Description:**

This is a kit for the old MAG-drive pumps, used to be manufactured in the Aqua Pro production line. The kit consists of subassemblies which were used to build the overall pump which was under PN 70-0145 and 70-0146. Both of these pumps have now been obsolete and are no longer made in house.

The new PNs replacing these pumps are now 70-7504 and 70-7505. The

70-7505	PUMP,LOW PRESS,MAG DRIVE,1/12 HP,230/1/50
70-7504	PUMP,LOW PRESS,MAG DRIVE,1/12 HP,110/1/60

**Results:**

Customers requiring kits should be advised to buy the new pump as a whole.
