Subject: 60-0040 was replaced by 60-4663

Details:

Part number: 60-0040 has been replaced by 60-4663

Description:

Pressure regulator Part number 60-0040 is now being replaced by 60-4663. This was due to the ease of installation and less connections involvement. Please see pictures below for reference. The 60-0040 will still be available for spares only, and it will not be installed on new build systems

Results:

Customers will be able to purchase both valves and also the spares for them.

Installation for the previous valve 60-0040

Installation for the new valve 60-4663
